TWO LITTLE FISHIES RANGE

BRIGHTWELL FRESHWATER ADDITIVES

ERASE-CL

- Removes chloramines, chlorine, ammonia and nitrites.
- Can be used to neutralize iodine in the event of an overdose in aquariums.
- Safe for all marine aquariums.
- Phosphate and silicate free.
- Add 5 ml (1 capful) per 90 litres of water to remove chloramines and ammonia; used in this fashion, Erase-Cl will treat up to 6 ppm chlorine, 3 ppm chloramines, or 1 ppm ammonia.

Determine ammonia concentration in aquarium using an Aquasonic ammonia test kit.
