

## WATER CONDITIONERS

### GOLDFISH WATER CONDITIONER

- Contains a mixture of 9 salts and natural minerals, providing trace elements, fungal and bacterial inhibitors.
- Add when starting up or doing a water change.
- Brings out natural vibrant colours of fish and improves health and well being.
- Add one level teaspoon (5gms approx) per 10 litres of water (500g treats 1000L).

CODE	SIZE	Ctn
NH220	50gm	40
NH230	250gm	48
NH240	500gm(bag)	24
NH250	1kg	16
NH260	10Kg	Bucket
NH270	20Kg	Bucket

### TROPICAL WATER CONDITIONER

- Contains a mixture of 9 salts and natural minerals.
- Contains trace elements, fungal and bacterial inhibitors.
- Add when starting up or doing a water change.
- Add one level teaspoon (5gms approx) per 15 litres of water.

CODE	SIZE	Ctn
NH221	50gm	40
NH231	250gm	48
NH241	500gm(bag)	24
NH251	1kg	16
NH261	10Kg	Bucket
NH271	20Kg	Bucket

### LIVEBEARER WATER CONDITIONER

- Guards against fungus and bacterial infections.
- Supplies natural salts and humic acids, recreating natural conditions.
- Allows water changes and fish to be moved with safety.
- Use one level teaspoon (5gms approx) per 5 litres of water.

CODE	SIZE	Ctn
NH233	250gm	48
NH243	500gm	24
NH253	1kg	16
NH263	10Kg	Bucket
NH273	20Kg	Bucket

### RIFT LAKE WATER CONDITIONER

- It's still the original and the best and now copied by others.
- Contains 11 salts to raise hardness by 300ppm, salinity by 80ppm and a pH of 7.0 will rise to 8.0.
- Add one level teaspoon (5gms approx) per 7 litres of water.

CODE	SIZE	Ctn
NH232	250gm	48
NH242	500gm	24
NH252	1kg	16
NH262	10Kg	Bucket
NH272	20Kg	Bucket

### AQUARIUM SALT

- An effective tool in fish maintenance.
- Used for disease control and/or treatment, bath or in general applications.

CODE	SIZE	Ctn
NH310	500gm Bag	40
NH312	500gm Jar	24
NH313	1Kg Jar	16
