KOI SOCK NETS

A "must have" for koi keepers, these sock nets have a 30cm diameter aluminium frame and 30cm long wooden handle. Both net and water holding socks are available. The socks are black and 1 metre in length. The KS44 has a very fine mesh that will allow water to pass through. The KS45 is a much tighter weave, very soft, but will not allow water to pass through. The KS46 is similar to the KS45 but with a blue sock and the bottom 33cm is soft 3mm white mesh. The fish are held within a sock of water which is much gentler for them.
