

Material Safety Data Sheet
Aquasonic Pty Ltd
Date of Issue: 20 November 2013

Product Name: Aquasonic Oodonex

Hazardous Material: None at the concentration level of actives in product.

Physical Data

Description: Clear, slightly yellowish – blue liquid.

Melting Point: About 100°C

Odour: Slight characteristic odour

Specific Gravity: 1.00 – 1.01

Chemical Data

Acidity: pH range of product: 6.4-6.8

Hazardous Reactions: none known

Fire and Explosion Data: Water Solution/Not Applicable

Flash Point: N/A

Flammable Limits: N/A

Extinguishing Media: N/A

Unusual Fire & Explosion Hazards: N/A

Health Hazard Data

Environment & Toxicological Data

1. The product is non-corrosive, non-explosive, non-inflammatory and not harmful unless ingested in large quantities

Recommended Handling Procedures

- a. Protective equipment, extra ventilation, safety goggles or gloves: When handling use gloves to prevent skin contact and protective glasses to prevent eye contact.
 - b. Storage conditions: Store in tightly sealed containers in places of ambient temperatures.
 - c. Storage life/stability: Stable at above recommended storage temperatures.
 - d. Spillage/Emission: Collect as much as possible in a clean container for reuse or disposal. Flush residue down with water. The residue can be washed down drains or sewers as long as large amounts of water are also used to dilute out the product.
-

Emergency and First Aid Procedures

Skin: Remove contaminated clothing: wash skin thoroughly with soap and water.

Eyes: Flush with water for 15 minutes. Get medical attention if adversely affected.

Ingestion: Give an emetic such as Ipecac Syrup if large quantity is ingested. Contact a doctor or Poisons Information Centre immediately.

Inhalation: No problems should be accounted. Simply go to fresh air area.
